

About Syracuse

As one of the snowiest metropolitan areas in the United States, Syracuse is well known for its high snow, humidity, and outdoor recreation. Located near the Erie Canal, the city offers a variety of outdoor activities such as biking, hiking, and outdoor rec space.

The outdoor's aren't for everybody so you can also find an indoor zoo, museums, and historical sites and buildings to explore. Syracuse has a little something for everyone and is home to Syracuse University, with entertainment found around every corner.

Perhaps the strangest attraction within the city is the upside-down traffic light which stems from the city's large Irish population. Installed in 1925, the light was installed upside down putting the green on top and red on the bottom, believing that the red on top would stand for British preference and the green on top for Irish.

Having the 5th largest population in the United States, the city is a popular location for younger generations looking to settle down or just have a good time. Hosting the state's largest shopping center as well as active nightlife, Syracuse is a fun and active community that is always on the move and ready to entertain.
